

BT-3000

Battery Powered Fleet Tracking and Management Solutions

OVER **5** YEARS WORRY FREE TRACKING!

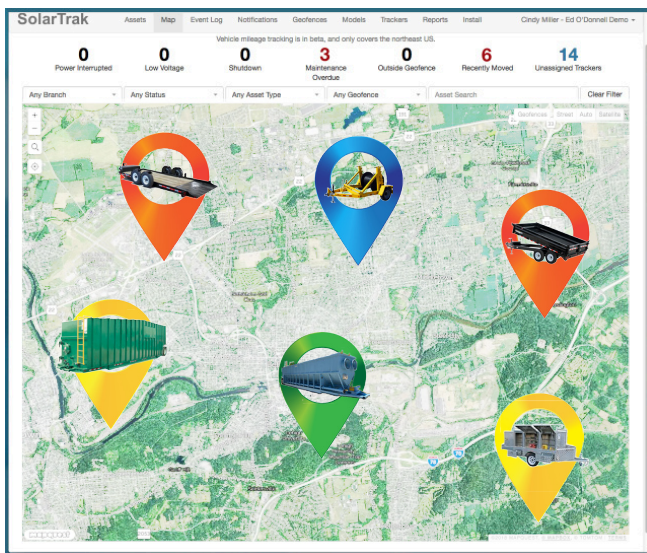

TRACKING YOUR EQUIPMENT - POWERED OR NOT - JUST BECAME EASIER!

No battery? No problem! SolarTrak's Battery Powered Tracker is the perfect solution to keep tabs on all your non-powered assets.

You determine how often you check on your assets - 1, 2 or 4 times daily. The integrated battery pack can provide more than **5 years*** of tracking ability on your equipment.

Simple to install, and no antenna needed!

For **around \$10 per month** per unit, you'll NEVER miss out on a job because your equipment can't be located!

View equipment on satellite or street maps.

MONITOR & MANAGE YOUR ASSETS

- Manage, monitor and track your equipment from your PC or Smartphone.
- Ensure your equipment is ready for the job. Track maintenance needs and equipment location.
- Receive text alerts when equipment is moved or requires servicing.
- Create geofences - equipment borders (i. e., the perimeters of the work zone). Receive alerts if equipment has moved upon tracker check-in.
- User programmable tracker - determine when and how often the location will be checked. Select from 1, 2, or 4 times per day.

Affordable GPS Fleet Management ...less than \$10 per tracker per month!
